Rumoured, Divisional Court - Moving To Haliburton

Whats going on? Is the question the Minden people are asking. It has been rumoured in this community that the divisional court for this county will be moved to Haliburton. At the present divisional court is held in Tory Hill, Haliburton and Minden.

The move in this direction has been brought on by the resignation of Mr. Ed Rogers, clerk of the divisional court here in Minden, last July. He was to give up office the first of January this year, but has not yet been replaced.

If these courts are to be combined into one at one location, there should be no question, as far as locality is concerned, since this is the County seat, and all facilities are here in Minden. However there seems to be some kind of a move on, to take this court to Haliburton.

The Progress contacted Mr. Glen Hodgson this week to see if the MPP for this riding had any answers on this subject. Mr. Hodgson said, "It is in the hands of the Attorney Generals Department." He went on to say, when asked why this position of clerk here, was not filled through advertisements in the papers, "Everyone new this job was going to be available, and because of

the low salary, apparently no one is interested. Judge Richardson has made a recommendation for the position." Mr. Hodgson was asked, if the courts are to be combined, why would they not be held here in Minden. He stated, "The court will be moved to the district that warrants it most, on the number of cases, it could very easily stay in Minden or move to Tory Hill, or Haliburton."

When council heard of this rumour, they immediately called a meeting and after much discussion, passed a motion, which read, whereas the council of Anson, Hindon and Minden are presently aware that a move is now on foot to remove the divisional court from the court house presently maintained in Minden, to the village of Haliburton, now therefore the clerk of the said township is hereby directed to draft a letter to Mr. Glen Hodgson MPP, demanding that the said discussion, court remain in the County Seat.

The people in this community are certainly behind council for their action, for it would be a blunder to try and split up county affairs all over the district, when this is the County Town, and the facilities are available here.

BUSINESS MEN'S ASSOCIATION IS FORMED IN MINDEN — FOLLOWING MEETING HELD LAST WEEK

On Thursday evening, March 10, in the municipal building a good turn out of 35 business men and women attended a meeting, its purpose was to form a Business men's association.

Mr. Don Berry was appointed chairman for the evening. Everyone in attendance was in favour of such an organization, and were

enthused with the many things it could accomplish.

Seven people were nominated to head up an executive, these people will decide, to what position each will take. They are as follows:— Eric Cross, Lorne Coburn, Irvin House, Floyd Hall Robert Gorrie, Steve Rastall, Alan Greir.

The purpose of such an association, is to draw the business men together, to work in harmony, for the betterment of the community and business. As a large body they can demand many facilities, for the convenience of the paying public.

Many good suggestions were offered at the meeting, a few of these were:— Industry Development, winter recreation planning and facilities, beautify the community, supply better accommodation and facilities, parking facilities, just to mention a few of the many ideas the business men have in mind.

The next meeting for the executive only will be held tonight.

BUILDING CONSTRUCTION \$890,170. LAST YEAR

Building Inspector Jack Johnson told Minden council last week that the estimated value of new buildings constructed in Minden last year totalled \$890,170. He also stated that there were 226 building permits issued in 1965.

Mr. Johnson also urged Minden and Lutterworth councils to request the Trent Canal System to have the trees that have fallen into Gull River removed.

Councilor Roy Windover remarked, "I had people up from the Department of Transport last year, but they won't do anything because there is a navigable path up the river."

The council passed a motion to request the clerk to write to the Department of Transport asking if trees could be removed from the Gull River. A copy of the letter is being sent to Bill Scott MP for Victoria and Haliburton. A copy is also being sent to Lutterworth Township.

NO MINDEN — STANHOPE FIRE AGREEMENT

Councilor Roy Windover, reported to Minden council last week that Stanhope has decided not to go into a fire agreement with Anson, Hindon and Minden. Instead Stanhope has reached an agreement with Dysart for fire protection.

Dysart has a standby fee of \$100.00 a year while Minden charges \$200.00 Minden at present have agreements with Snowdon and Lutterworth.

STANHOPE TAX PAYERS. CRASH PRIVATE COUNCIL MEETING

On Monday night the Stanhope council had arranged for a private meeting, to talk over plans for a new municipal building. However news got out that this meeting was taking place, and many tax payers felt this was a secret meeting, and decided to take it in. As a result of the unexpected visitors, very little was accomplished.

There has been much debate over this property, but it has all gone through the hands of the lawyers and is quite legal and final. Councilor Sinc Nesbitt has made an extensive inspection of the property and building plans, but explained to the Progress, "When we get everything straight and ready to go ahead, there always seems to be some kind of interference."

There is some speculation that if there is not more co-operation in Stanhope, that Township just might lose a couple of good councilors.

News and Views

from the Minister's Study
by DAVID W. STAPLES

Many times in recent months I have heard people speak with deep concern of the sad and sorry state of affairs existing in the capital of Canada and certainly no one genuinely interested in the future of our nation can help but be troubled by the moral mess in Ottawa. It is a situation which raises some very grave questions about the democratic Principles upon which our society is founded to say nothing of the image of democracy being presented to the young, emerging nations of the world.

By far the simplest answer is to point out the corrupt practices of our politicians and the failure of their colleagues to prevent such shameful events from taking place. The only thing wrong with such an answer is that these are the men whom WE have picked by the democratic process to represent us in Parliament. The sickly state of democratic government in Canada is surely a symptom of the maladies of the electorate! It is a reflection of general moral tone of our people. For Christian people the Season of Lent is meant to be a time of self-examination and this includes looking at ourselves as Christian citizens. In hopes of provoking some thinking on this matter by those who read this column, I would like to draw attention to three areas in which the Principles of Democracy seem to be endangered.

A Lack Of Respect For Authority, would be the first of the list. All organized social living depends upon authority. In totalitarian states the authority is imposed from above by means of force. Either you do what you are told or else — ! While in a democracy men choose representatives to exercise authority over them to govern their relationships with others. In such cases, a majority of the citizens can at any time change their representatives if that authority is not being properly used. Because an absolute minimum of force is employed the Democratic Principle will function effectively only when people willingly respect the authority which they have freely consented to accept. A lack of respect for authority and for those entrusted with it leads to social chaos.

Followers of Jesus Christ will find an excellent presentation of this matter of respect for authority in I Peter 2:13-17. Such a passage as this as well as the numerous references of St. Paul deserve careful study in the light of conditions existing today. The beginning of the good life that is worth living is respect for the authority of those set over us. In the

light of this we ought to be disturbed by the evidences of a lack of respect for authority in all phases of life around us.

It is evident in regard to the keeping of the laws of community life. In our area our police force has had to be tripled within five years time and our court is concerned with a distressingly large number of repeating offenders. And this disregard of laws is not by any means limited to so-called juvenile delinquents. One day recently I had occasion to wait in my car for a period of time near a large sign that read, "Authorized Vehicles Only." I counted either seven or eight cars, driven by leading citizens of our community, go past the sign and into the restricted area. I doubt that more than one or two of them could have been "authorized", but simply disregarded a sign which had been erected to insure the safety of those using the area.

The story is told of a first-grader at school who was hurt in the play-ground. As his teacher was bandaging his cuts, she tried to encourage him by saying, "Now a big boy doesn't cry when he gets hurt!" The youngster retorted immediately, "Whose going to cry? I'm going to sue." Back of the humor, this story points up the growing lack of respect for school authorities responsible for the education of our children. And it is an attitude that comes out of teachers in the presence of their children, and how often these same parents will make a real scene with school authorities when their pampered brats receive a bit of discipline, which they should have gotten in their home before they ever reached the school stage. Such children will be bound to lack respect for teachers whom their parents will treat in such a disgraceful manner.

One witnesses many evidences of a lack of respect for authority within the Church. In the United Church we have a democratic form of church courts. Every member who joins the church freely consents to abide by the authority of these courts and the policies which they enact. Yet each year a group of people of varied ages join the church and then simply ignore the rules and discipline which they have accepted and any attempt to remind them of their responsibilities will be met by a burst of indignation. Surely the admonition of Peter needs to be heard by our generation if our democratic society is not to become mean, brutish and short: "Be subject for the Lord's sake to every human institution," (I Peter 2:13).

A REPORT FROM THE PARISH OF - MINDEN, GELERT, BOSKUNG

By Rev. Charles Dymond

Home Missions: St. Paul's Church.

Our VESTRY has recommended the renovation of the interior of the Church which would include the revarnishing of the floor, the replacing of the pews in a more comfortable arrangement in relation to the kneelers. We have been encouraged to complete the Church Tower at least the interior.

Our Centennial Committee is already outlining a program for the celebration of our 100th Birthday this year. Letters have been sent out to previous incumbents of this Parish inviting them to come and speak to us on certain months of the year beginning with the month of May and concluding in the month of November. Each one invited is to pick a week end in the month assigned to him arriving in Minden on Saturday with his family. They will be invited to stay overnight possible in the home of a former parishioner at which time members of the congregation could visit with them. In any case there will be a reception held in the Parish Hall following their address at the 11 a.m. Service at which time you will have an opportunity of speaking to them. It is our hope that one of our Bishops will be able to come in November to conclude our celebrations. Anyone interested in providing accommodation is asked to contact J. O. Jackson. Those of you who have information concerning the past History of our Church are asked to give pictures, anecdotes, and information to Earl Hewitt that can be suitably placed in a Booklet.

SIDESMEN:- We now have a full list of sidesmen for 1966 that is in the capable hands of Bob Austin. These men hold a Communion Breakfast for members of the Parish on the Second Sunday of every month to which everyone is invited, including many of our United Church brethren. We appreciate the help that these men are offering in fellowship and

the assistance they give to the Churchwardens.

LADIES GUILD:- The ladies guild have joined with the Women's Auxiliary to make a strong women's group which is in keeping with the mood in the Church the world over towards union. We hope that many of our women will attend their meetings and assist in their projects so that their work for the Lord here at home, in the Diocese, and abroad, may go ahead. A forthcoming project for them is the Cub and Scout Father and Son Banquet. CHOIR:- Our choir has been meeting regularly on Thursday evenings at 7 p.m. New members and others are encouraged to join with them as they begin to practise the Easter music.

STEWARDCHIP:- The Vestry has instructed the Churchwardens and

the Advisory Board to give top priority to an every member visitation.

CEMETERY BOARD:- The vestry appointed a new member Pat Campbell to this board. A recent report has informed us that the present gate and adjoining archways have been restored and that restoration of the 1st. World War memorial stone fence is to be continued. The purchase of 50' by 384' of property south of the cemetery from Fred Wright has been completed. Future projects include the spreading of top soil and the planting of grass seed.

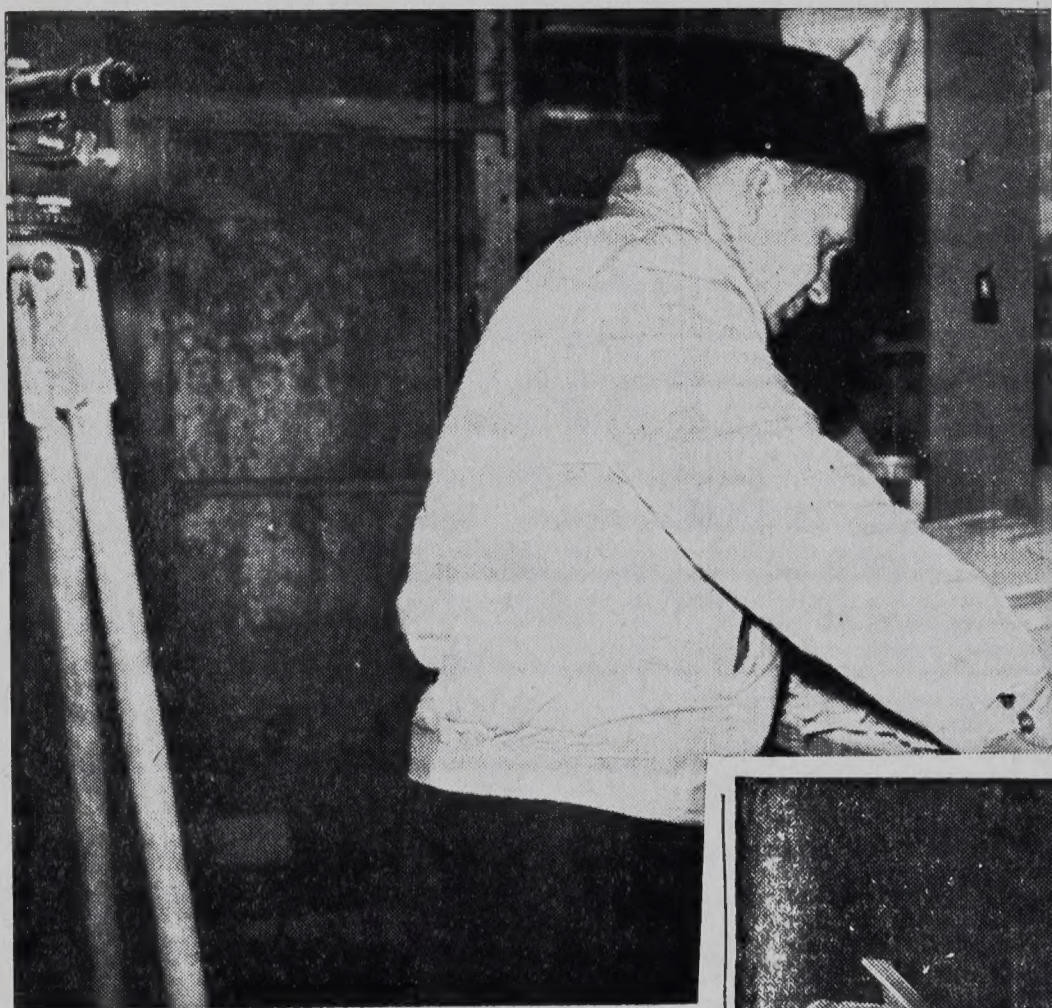

SUNDAY SCHOOL:- Our attendance has doubled since we began using the revised teaching materials. We are in need of a Superintendent and two adult teachers if you can help please speak to Mr. C. Dymond, at 203.

MORE NEWS OF ST. PAUL'S CENTENARY

At a meeting held in the Parish Hall, plans were made for preparing a booklet as a memento of the occasion.

The Committee agreed: The Businessmen should be given an opportunity to congratulate the Church through paid advertisements in this booklet. That a member or past member wishing to become a patron, by having his name printed on the back of the book, may do so for a minimum offering of one dollar.

SUPERINTENDENT PATIENTLY AWAITS OPENING

Pictured in these photos is superintendent of the Hyland Crest Senior Citizen's Home, Ralph Banke, as he studies blueprints of the new split-level building. The bottom picture shows Mr. Banke, silhouetted at the window of one of the bedrooms in the newly constructed home. The home is expected to be open near the end of April. Mr. Banke has had no rest, while waiting for home to be completed, he has been busy organizing his staff, and planning. He will conduct a two week training program, for his staff before the Residents move in.

NEW RINK AND ICE PLANT FOR LESS THAN \$100,000

Over the last two weeks we have heard much controversy over Minden's arena, and many remarks concerning a new rink and ice plant. After talking to many people we have found that many show a desire to have a new rink and artificial ice. After talking to our councilors, we have found that they too feel that we are in need of new facilities, however, they keep reminding us that it costs well over \$100,000 and this amount is out of range.

Over the last two weeks we have listened, to the many comments, and doing a little research of our own, now we will give you our views on this subject.

First of all I would say we need a new rink and artificial ice. We also think this can be accomplished for much less than \$100,000. Now I know this will surprise most of you. How can we have a new rink and artificial ice for less than \$100,000?? For this information, I have taken my inquiries to Bobcaygeon.

This community built a new rink, which was needed badly, the town of Bobcaygeon at the time when this rink was built, had a population of 900 people, very close to the population of this community. They didn't have any more loose cash floating around, than this town has. But, they built a beautiful new rink, with artificial ice, and a full size recreation hall, for \$73,000. Recently they have purchased an ice machine at \$5,500, for scraping, flooding and planing the ice all in one operation. This machine is much like the one at Maple Leaf Gardens. Now you must be wondering how they did it. Well it was quite simple. The people in the community wanted it, so they all joined in as one happy family and built it. All labour was free. The tradesmen, donated their time and the unskilled put their back to the job, with pick and shovel, and carried supplies to those with the hammers. The building shot up in no time flat, when it was completed it cost exactly \$73,000 this included a \$23,000 ice plant with 9 miles of metal pipe, and ice surface 85' X 185', and can seat 1,500 spectators. The recreation hall dressing rooms and offices, etc. are all heated with oil, forced air.

Because it was built in the fair grounds they received a \$10,000 grant from the county, for agricultural use. Now, we have it even better than Bobcaygeon. We have a building, that does not have to be torn down. There is a possibility of selling this building to a small firm, such as a woodworking company, for example. The revenue from the sale of this building would make the price of a new building look a little lower. Besides ending up with a new rink and artificial ice for very little cost, we could also boast of having acquired a small industry.

We have been told that if a new rink was built here, and competed with Haliburton's rink, there would be two red herring in the county. Bobcaygeon is only 20 miles from Lindsay, which has many attractions besides the rink to draw people away, but still the Bobcaygeon rink is booked every day and evening of the week, and is paying its way quite easily.

I feel a community can do wonders, if they all want something bad enough and are willing to join hands to accomplish it. I am sure if everyone left a little sweat in a building, they would certainly support it.

Progress Travels To Vancouver

LETTER TO THE EDITOR

Vancouver, B.C.

March 7, 1966

Dear Sir:

I have just received a copy of the Minden Progress, and I have read it thoroughly. Of course the one item of interest to me was the article by Abe Boatman about tattooing. I have been tattooing for a number of years, and if it is known, the art goes back to the beginning of time. I often get strange requests, some with very good reasons, and others just the opposite. Mind you I may not always agree or comply to their requests, but if the design they wish is of good taste, I will do it.

I am at a loss to be able to give you a good sound reason for one having a tattoo put on. All though in my experience the average person who does have one, had a reason. It could be the loss of a loved one, or one to remember some one by, or just a design to say they have been some place.

I operate a very clean studio, and I get all walks of life. For example I have done Doctors, Lawyers, Police, and even Ministers. Many ladies, have a beauty spot put on, or a design with a name in it. Even today it is far from a lost or dying art. I have had many write ups, and I am told that I am known the world over for my work. I have had people come to me from great many miles to have a scar covered, or a blemish. I do many kinds of this special type of work.

The reason I write, I like your paper very much. If at any time I can be of any help, in any way regarding the art of tattooing and is many uses, please feel free to call, only too glad to be of service.

I am sending you a few photos, please feel free to use them, and my name.

Yours Sincerely,

"Circus Leo"

536 Robson St.

MINDEN BOWLERS COMPETE IN FENELON FALLS

Minden bowlers fared well in tournaments Saturday and Sunday of last week end, in Fenelon Falls.

On Saturday the Minden team finished in second place with a total pin fall of 3055. Fenelon Falls edged them out with a pin fall of 3077.

Leading the Minden attack was Harry Cowen with high single, 350 and a good total of 784, other scores were, Reg Burk 579, Bill Walker 509, Ray Rivers 548, Pat Clarke 565, Stirling Hewitt 493. Ron Robinson bowling for the Carnarvon entry was high triple with 779, this helped the Carnarvon club to finish in third place.

On Sunday the mixed teams bowled in Fenelon Falls, this time both entries from that town took the top two positions. Minden captured third place. Minden scores were Connie Burk 582, Bill Walker 563, Virna Wagg 587, Mac Burk 432, Roberta Walker 375, Harry Cowen 510.

EDUCATION WILL BE STUDIED AT EDUCATIONAL CONFERENCE

Education, one of the most pressing problems of the present generation, will come under the microscope for inspection and study at Canada's largest educational conference, scheduled to be held in Toronto from April 11 to 14 under the auspices of the Ontario Educational Association.

The occasion will mark the 106th annual convention of the O.E.A. Leading authorities from both sides of the U.S. - Canada border, as well as from England, will participate in the program and problems pertaining to all phases of education will be discussed.

The four-day educational conference is expected to attract more than 14,000 delegates from all parts of the province. Arrangements have been made to utilize every available assembly room at the city's leading hotels, as well as lecture rooms at the University of Toronto, civic halls, schools and even church auditoriums.

The entire program is planned and designed to provide delegates an opportunity to keep abreast of changing trends and techniques in the field of education. It will include panel discussions, displays, exhibits, competitions, displays of articles used in education and other features.

Formed in 1861, the Ontario Educational Association is a voluntary, co-operative organization comprised of teachers, trustees, ratepayers, professors, inspectors, Home and School members, school nurses, Department of Education officials and so on.

SPORTS

WITH BOB BEENEY

With the decline of our hockey season taking place in this area interest is starting to swing around to the various hockey schools that are held each summer. Last year a number of youngsters from Minden travelled to Bowmanville and attended the Dick Gamble Hockey School. However this year there is going to be one held in Haliburton and it is likely that a school being held in the immediate area will draw more kids than the schools held in Bowmanville or Fenelon Falls.

Since I am most interested in the Haliburton Hockey Haven I will give a brief rundown on the school.

Any boy from the age of 7 to 17 and lives within a 50 mile radius of Haliburton may now participate in the summer instruction that will be taught in the Haliburton Arena. I will add that a new ice making machine is going to be installed to overcome problems that are created when ice is made in the summer. Boys may commute into these sessions or may be transported from key pick-up points for a nominal charge. Hockey stars like Detroit's Norm Ullman and Bill Gadsby, Boston's Bernie Parent, and Toronto Maple Leaf's Brit Selby and Ron Ellis will be the instructors. Bobby Orr of the Oshawa Generals who is classed by many as the outstanding junior player in Canada will also instruct during the summer. The fee is \$35.00 per week, Monday to Saturday inclusive. The boys practice three hours a day so this gives them 18 hours of hockey a week. The hockey sessions start on Monday July and finish on Saturday Sept. 3. All enquiries should be sent to Haliburton Hockey Haven, Suit 20, 4 Finch Ave. W, Willowdale, Ontario.

Although I don't think there is much difference between any of

APPLICATION FOR TREES

All landowners planning to plant trees this spring should submit complete applications immediately.

To qualify for trees from the Department of Lands and Forests you must have two or more acres of land exclusive of buildings.

The trees are to be used for establishing a plantation, a windbreak, or to refill and enlarge a woodlot.

Remember, for survival the trees must be planted in the early spring as soon as the frost leaves the ground.

the many hockey schools held throughout Ontario I am partial to the Haliburton Hockey Haven. Since a youngster is going to play all his minor hockey in this area it gives Ab and Scotty Larue a chance to keep their eyes on the advancements of each individual hockey player and I imagine that they will be watching the players that take part in the hockey school in Haliburton very closely. Each year new additions must be made to the junior team and Ab and Scotty will be quite interested in the progress of any player in the minor hockey system. I also understand that a report on each player is made and no doubt this will be read with interest by coaches of the different minor hockey league teams.

SLAPSHOTS

The Minden All Star Squirts went down to defeat, to the Haliburton Squirts by a score of 4-0 last Friday night. The Minden team had trouble clearing the puck out of their own end although for the first 10 minutes of the game it looked like Minden was going to give Haliburton a real battle. The line of Peter Burke, John Welch and Peter Fearrey kept the Haliburton team bottled up in their own end for minutes at a time. However Schell and Robertson proved to be the outstanding players on the Haliburton team and they scored all of the goals between them. These two kids also played on the pee wee team and they don't look out of place even there.

The Minden All Star Squirts go to Cannington on Saturday to take part in the Little NHL Consolation finals. A win would bring the Consolation Cup to Minden for the first time. Opposition for the team has not been announced yet but it is quite likely to be Millbrook.

On Monday night Haliburton Pee wees defeated the Minden Pee Wees by an 8-1 score. Minden defenceman Bill Leary suffered a 13 stitch cut when he blocked a shot. The puck hit him near the eye.

Minden Squirts and Peewees take on the Haliburton and West Guilford Squirts and Peewees next Monday and Friday nights at the Haliburton arena. These are the preliminaries for the Glen Dart trophy and the finals will take place in April.

I was sorry to miss the skating carnival last Friday night but I was on the road with the Squirt hockey team. From all glowing reports the carnival was a complete success.

CALLING ALL GIRLS!!

If you are fifteen years of age and have nothing to do on Friday nights, from seven to nine, join an enjoyable organization; The First Carnarvon Ranger Crew, the senior branch of the Canadian Girl Guide Association.

This is the first Ranger Crew in Haliburton and we need your support.

As of now, there are eight members: Jean, Given, Margaret, Dorothy, Rosemary, Sylvia, Susan, Caroline, and our leader, Mrs. Alice Chambers.

The Rangers are a worthwhile training organization for all girls, and our purpose is "serving the public". The Rangers are available at all times to help in any way we can. Besides the work involved, they have good entertainment programs, such as a trip planned for next year to Quebec.

If you are at all interested, come to the Christian Education Building in Carnarvon, any Friday night at seven.

UCW GROUP TOUR

The members of Unit 2 of Minden United Church Women were conducted on a tour of the Hyland Crest Home, Wednesday, March 9. Mr. Ralph Banke was in charge and on the way through pointed out the various points of interest and new ideas used here. All the sections were visited and although the workmen were busy we could see the advantages of this building. Of interest was the perfect view from all the windows very restful and certainly the Home is in an ideal setting. The ladies gathered at the Church Hall for the Devotional period and all enjoyed a delicious cup of tea and lunch served by Mrs. Dick Kirkwood.

HI NEWS

with

Dianne Earle

There hasn't been much excitement up here during the past week. However the Girl's Bantam Basketball team attended a tournament in Lakefield last Saturday where they were victorious over Bancroft by a score of 28-22, but lost to Fenelon Falls 10-9, and Lakefield 12-9. However they did very well for the first year of this Tournament.

The second last dance of the year, a sock hop, held last Friday night was fairly well attended, (for Hal Hi, that is). We really must get out and make the next dance a smash; it will be the last on this year.

A propos, Happy St. Patrick's Day all you Irishmen!

CENIOR CITIZEN'S HOME NEWS

by Ralph A. Banke

SOME RETURN TO CHILDHOOD

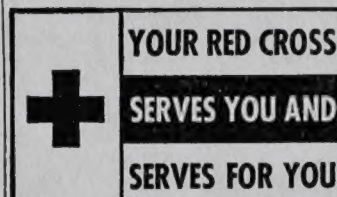

SPECIAL CARE — This is the area in HYLAND CREST — separated from the rest of the Home by corridors and service areas, but still having the same fine furnishings and facilities, where we will Care for those who have returned to their childhood.

The **Homes for the Aged Act** states as follows:— 13, (b) Any person who is over the age of sixty years and mentally incompetent and who require care, supervision and control for his protection, but who is not a mentally ill person or a mentally defective person within the meaning of **The Mental Hospitals Act** and who is not eligible for admission to an institution under that Act: (R.S.O. 1960, c226) may be admitted to and maintained in a home.

As the **ACT** states above, these Residents (the senile) require care, supervision and control for their protection. But, along with these requirements from our staff, they require patience and understanding. Patience with their little petty demands and complaints, patience with their difficulties in dressing and eating habits, understanding of their mental return to childhood and the very simple demands of a young child. It will be up to us and our staff to try to find any spark of interest still remaining which can be reawakened to keep them interested in at least some simple hobby or craft. All of our staff must be constantly on the lookout for some interest remaining in the senile as it is much better for them to be able to work with the rest of the Residents in the Home for possibly a few hours each day on some simple hobby or task, than sitting like a wallflower at a party day after day.

During the past several weeks we have been trying to emphasize the fact that, unlike the Houses of Refuge of years past, you do not have to walk into HYLAND CREST, nor must you or your relatives or friends still be completely mentally alert. Whatever the **NEED FOR CARE** (excepting complete hospital or mental institutional) HYLAND CREST will be prepared to meet it.

As there still seems to be many questions concerning the application forms, we will devote next weeks column to explain each form and its use to us, both at the time of admission to HYLAND CREST and in the administration of the Home.

Pictured above is the entire group of Scouts, Guides, Cubs, Brownies and Rangers, that attended the Christian Education Hall last Wednesday night for the Father, Mother and Son, Daughter banquet.

Good Turnout At Father And Son Banquet, Held In Carnarvon

On Wednesday March 9, the annual Father and Mother banquet for scouts was held in the Christian Education Centre at Carnarvon.

A good turn out of a hundred people were on hand to take part in the evening's festivities. A delicious supper was served by the church women and then everyone enjoyed a full program.

Head table guests were, Rev. and Mrs. David Staples, Bill Payne, Sinc. Russell, Jack Gregory, Mr. and Mrs. Nelson Ward, Mr. and Mrs. William Chambers, Mrs. Leonard Stinson, Mrs. Mary Packard, Mr. Alvin Johnson, Mr. Bob McBrien, Mr. Norman Wallace and Mr. and Mrs. Robert Harvey Jr. Mr. Harvey was master of ceremonies for the evening.

Besides the scouts, the Brownies, Guides, Rangers and cubs were on hand, many of whom received awards for different achievements.

The highlight of the evening were three Scouts who received the Queen Scout award, the highest award available for a Scout.

Winning the Queen Scout award were Brian Davis, Ray Johnson and Colin Russell, making the presentation was Nelson Ward.

The Brownies took this evening to enrol two new members, Sus-

an Redner and Sharon Fader.

The Brownies also presented four Golden Bar Awards, these were received by Cindy Chambers, Ginger Chambers, Mary Flora Macnab and Mary Skelding.

Bill Payne presented a Leaping Wolf badge to scout Larry Hewitt.

Bonnie Stinson received her second class pin and her Hostess badge for her achievements in the Girl Guides. Also receiving

the Hostess badge was Jill Harvey.

The Rangers presented three first class pins, receiving these awards were Dorothy Wallace, Pat Redner and Margaret Wallace.

After the awards were presented and the different groups had gone through a short review of their routines, the Brownies, Guides and Rangers lead in a bonfire sing-song. This ended a very enjoyable and educational evening.

MAIN STREET SEWAGE PROBLEM HERE IN MINDEN

At the Minden council meeting held last Wednesday, a discussion on installing culverts on Peck St. turned from roads to sewage.

It was suggested by council that the ditches on Peck St. would be closed in with culverts installed to make more parking space available.

Roy Windover, remarked, "It will be a benefit to the business people if Peck St. is improved. There would be parking room for 50 to 60 cars. It would also make a good spot for launching boats." "We've been thinking about doing it for a couple of years. We should do it," commented Deputy

Reeve Mark Vasey.

Councilor Reg Booth injected, "We can't close up the ditches, there's sewage running in it."

Sanitary inspector Jack Johnson addressed council on the subject, "There was sewage running into it but the hotel fixed up their tile bed now there isn't any sewage in it. But I don't think the restaurant should be allowed to open up until proper sewage is put in. They should have a pump-out tank and a proper toilet and sewage system put in."

Reeve Brandon commented, "If it isn't working properly than Johnson should see that it gets fixed."

Emergency Measures

by N. W. Timmerman, Director,
Emergency Measures Branch,
Dept. of Attorney General

Reproduced from

TOPIC

Official Journal Ontario Public
Service, January and February,
1966.

During the recent blackout,
which affected large parts of the
North-Eastern United States and
Southern Ontario, millions of
people were faced in one way or
another by an emergency situa-
tion "that could not happen".

Fortunately, in Ontario the power
was restored in a matter of a few
hours and people generally ac-
cepted the inconvenience philoso-
phically, with good humour and
common sense. The blackout was
the main topic of conversation
next day and for about a week or
two after. Then, inevitably, it was
pushed into the background of
attention and interest.

For those charged with the re-
sponsibilities of planning for em-
ergencies, however, the end of
the blackout was only the begin-
ning: a time for a new look at
the existing plans and procedur-
es, methods of operation, the re-

liability and availability of equip-
ment, etc. to see where things
worked well and where they work-
ed poorly. It was a realistic ex-
ercise of parts of the Emergency
Measures Governmental Plans
and Operations, primarily at the
municipal level but also at the
provincial level.

In the affected municipalities,
Emergency Measures Co-ordina-
tors sprang into action to advise
and assist their municipal gov-
ernments in implementing emer-
gency plans and to co-ordinate
where necessary the work of the
municipal services involved. As-
sistance was rendered by the
development of auxiliary gener-
ators to provide light and power
for essential services.

Volunteer groups such as Aux-
iliary Police, Rescue, Welfare,
etc., whose training is financed
by Emergency Measures funds,
were alerted and made ready for
action as required. Some co-
ordinators went on the air to ad-
vise people to shut off all unnec-
essary appliances to assist On-
tario Hydro in restoring the pow-
er. But the main effort was de-
voted to assessing the situation
and preparing for further devel-
opments.

The blackout did underline
once again the necessity for
everyone, governments and indi-
viduals alike, to plan for an emer-
gency situation (whether in peace
or in war) and to decide as best
they can what should be done
to meet it. This is where the em-
ergency Measures Branch (EMB)
fits in at the government level.

We are charged with the re-
sponsibility of giving assistance
and guidance to all Departments,
Boards, and Commissions of the
Provincial Government and,
through Emergency Measures Co-
ordinators, similar assistance and
guidance to County and Municipal
Governments in the develop-
ment of plans to meet a peace-
time or wartime emergency. These
plans must be related to the
overall provincial plan and the
EMB is responsible for their cor-
relation before presentation to
the Attorney General for final
approval. Department Planning
Officers, either full time or part
time, are responsible for produc-
ing their own departmental plans
but are assisted, when they so
request, by EMB staff members.
An Inter-Departmental Planning
Group meets periodically with the
staff of EMB to review the pro-
gress of their plans, to pool their
ideas and try to minimize dupli-
cation of effort where there is an
overlap of responsibilities and
generally, to make sure that all
planning is in step.

\$100,000. ROAD BYLAW FOR MINDEN

At a council meeting held on Wednesday, March 9 in the Minden Municipal Office, Minden, council decided to spend up to \$100,000. on the 1966 Road By-law. This figure represents the total of money to be spent on road construction and maintenance. Some of the possible projects that are to be included in this road program are: the Sawyers Lake Bridge at an estimated cost of \$15,000. A half a mile paving on the Gelert road that will cost \$5,000., and paving on the Horseshoe Lake road at a cost of \$9,000. There will likely be \$2,500. spent rebuilding a road on the Stanhope and Hindon boundaries.

Included in the road program will be the purchase of a half ton pick-up truck that is yet to be tendered for and the purchase of a five ton truck from Curry Motors for the price of \$6,896. This is subject to the approval of the District Engineer.

The price included trade-in of a present truck being used by the township. Other tenders received with trade-in were from Walkers \$9,088.61 and Seaway, Whitby \$7,509.63.

Construction and culverts for Peck St. will cost an estimated \$1,000.

NEW AMBULANCE FOR MINDEN

Minden council have decided to call for tenders on a new ambulance for the municipality.

Councilor Roy Windover and Fire Chief Eldon Deacon, are going to look over the specifications that will be needed. Fire Chief Deacon recommended that an ambulance similar in specifications to the one now used, be purchased.

The ambulance that is in operation now was donated to the municipality by the Minden Kinsmen Club.

REEVE DONATES USE OF LOT FOR PARKING

Reeve Charles Brandon told Minden Council at a meeting last week that he is donating the use of a lot that he owns to the town as a parking lot.

There will be no cost to the townships. Traffic experts that studied the traffic and parking problems in Minden, suggested that "Free Parking" signs should be erected where there is parking available.

21 YRS OLD?

When you turn 21 you're no longer covered by your parents' Hospital Insurance. To keep insured, you must take out individual membership within 30 days. Get your application form at a bank, a hospital, or from the Commission.

NEWLY WED?

The 'family' Hospital Insurance premium must now be paid to cover husband and wife. Notify your 'group' without delay OR, if you both pay premiums direct, notify the Commission.

NEW JOB?

To keep insured follow the instructions on the Hospital Insurance Certificate of Payment 'Form 104' that your present employer is required to give you on leaving.

HALIBURTON HIGHLANDS PROPERTY OWNERS' COUNCIL REVIEW OF MEETING HELD RECENTLY

At a meeting of the Haliburton Highlands Property Owners' council, we were very fortunate to have Mr. Joseph Curtin of the Ontario Department of Economics and Development, Regional Development Branch speak to us in connection with a discussion on water pollution. We were very impressed with what he had to say, and thought others in the Haliburton County area might be interested in it also. The following is an excerpt from his address.

"The results of studies indicate that Haliburton is becoming a summer city and could deteriorate into a summer slum. This would be a serious economic loss. In a cursory survey of the economic basis of this area, Hydro records reveal that there are 15,000 cottagers with electric service in the Haliburton Highlands. There are thus about 60,000 people here in the summer. These people

use five million gallons of water and produce 105 tons of garbage a week. The population of Haliburton will be doubling within the next generation (35 years) since it is in the recreational orbit of Metro Toronto. Our department has made grants to this area through the Lake Ontario Development association. The L. O. D. A. is an association of municipalities which receives advice and council from this department, but in all respects is autonomous, its policies being directed by the municipality governments. It is likely they would welcome a submission from the HHPOC indicating our objectives or even recommendations for the activities of the association. The LODA has a full time staff in Peterborough. One of the objectives of regional development is the preparation of an advisory regional development

plan. While not very complicated, it is a long term proposition which should be carried out with the closest cooperation of municipal councils.

Within the past two months, the federal Minister of Industry, Mr. Drury, has proclaimed a program of assistance for the industrialization of this nation. A few areas in the Province of Ontario have been designated and substantial amounts of money are being offered for industrialization. The objective is a worthy one: It is to provide more jobs, more income, for the people of these areas. One of these areas is Haliburton. For example, if you can bring in to the County a \$2,000,000 enterprise, you can receive a cash grant from the Federal Government of \$480,000. This is a notable incentive to locate here. We are deeply concerned that this policy should have been extended in this way without reference to the actual character of the industry. One sulphide plant, one zinc roaster, one sulphuric acid operation here of any size would represent a most savage disinvestment of this area. It is suggested to you most earnestly that you maintain a very close cooperation with your Municipal Councils so that the goals brought forward can be shaped to the true benefit of your County of Haliburton."

UCW MEETING

The Martha's Group "B" of the UCW met Tuesday evening, March 8th at 8:15 p.m. with ten members present.

After the study period on Trinidad they prepared sewing for overseas sale.

Luncheon was served by Jean McInerney and Irene Moore.

LAND WANTED

Large or small acreage, suitable for hunting or fishing. No buildings, bushland considered. State Lot, Concession, Township, Acreage and Price. A, June, 20 Carluke Crescent, Willowdale, Ontario.

THE NATIONS BUSINESS

by William C. Scott, M.P.

The price of prosperity today in Canada is far too expensive for most of us. We are entering a period of inflation whose effects are seeping daily into many sections of our economy.

This inflation, besides creating higher prices at home, undermines our export programme. No longer are our manufactured products as saleable on world markets — the cost too much.

A recent paper entitled "The Relative Position of Canadian Agriculture in World Trade" pointed out some interesting facts. The economists stated that our competitive agricultural advantage relative to the rest of the world has declined greatly during the last ten years. This they said "was due to the rising costs induced by rapid over-all economic growth and insufficient technological progress to offset these influences."

My main complaint is the indifference of our government. Only the other day in a television interview the Minister of Finance told us he wasn't too worried about the situation.

Maybe Mr. Sharp doesn't do the weekly shopping — neither do I for that matter — but I make it a point of keeping in touch with price increases. Besides my wife keeps me pretty well informed especially when she finds her housekeeping allowance isn't stretching as far as it should.

During recent weeks she, and many millions of housewives across Canada has had to pay more for hundreds of grocery items. Among those that have gone up since the beginning of the year have been butter, pork, and that very basic item, bread.

These are not the only prices that are rising as evidenced by the continued rise in the consumer price index. If this rise continues, and all indications and predictions by our leading economists say it will, workers will need and demand higher wages. Old age pensioners, as I mentioned last week will be the first to really be hurt. It will become more and more difficult for them to live on \$75 per month. They will not live in the true sense of the word, only exist.

What are the solutions? I think we must strive to give our Canadian manufacturers a definite awareness of the value of exports to the whole economy. It's no good piously telling them to export; we must take them and show them specific areas of the world where their commodities are really wanted.

We should also create more job opportunities by cutting down on the export of raw materials. A piece of lumber that has been "dressed" creates more jobs at home than the log that's shipped abroad in its natural state.

Tender For Truck

Tenders will be received for one 1966 half ton truck, until 5 p.m. April 1966.

Tender forms supplied at municipal office.

Lowest or any tender not necessarily accepted.

Municipality of Anson, Hindon and Minden
